# 12<sup>th</sup> MHT - CET - 2027

## TEST SERIES SCHEDULE

Stage-1

| SN | Date      | Day       | Physics                                                                | Chemistry                                                                    | Mathematics                                                                                         |
|----|-----------|-----------|------------------------------------------------------------------------|------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| 1  | 25/Oct/26 | Sunday    | 1. Modern Physics.<br>2. Semiconductor.                                | 1. Nomenclature & Isomerism<br>2. Solution                                   | 1. Matrices & Determinant<br>2. Mathematical Logics                                                 |
| 2  | 30/Oct/26 | Friday    | 1. Waves<br>2. Oscillations                                            | 1. Chemical Kinetics<br>2. Elements Of Group (16,17,18)                      | 1. Trigonometry Function<br>(Trigonometry Equation,<br>SOT(Basic), ITF)<br>2. Pair Of Straight Line |
| 3  | 5/Nov/26  | Thursday  | 1. Electrostatics<br>2. Gauss' Law & Capacitance                       | 1. G.O.C<br>2. Ionic Equilibrium                                             | 1. Vector<br>2. Line And Plane                                                                      |
| 4  | 15/Nov/26 | Sunday    | <b>Complete Syllabus From 25-Oct-2026 to 5-Nov-2026</b>                |                                                                              |                                                                                                     |
| 5  | 20/Nov/26 | Friday    | 1. Current Electricity<br>2. Magnetic Effects Of Current               | 1. Co-Ordination Compound<br>2. Hydrocarbon                                  | 1. Differentiation<br>2. AOD                                                                        |
| 6  | 25/Nov/26 | Friday    | 1. EMI & AC<br>2. Magnetic Materials                                   | 1. Haloalkanes & Haloarenes<br>2. D & F - Block                              | 1. Indefinite Integration<br>2. LPP                                                                 |
| 7  | 30/Nov/26 | Monday    | 1. EM Waves<br>2. Wave Optics<br>3. Rotation.                          | 1. Alcohol, Phenol & Ethers<br>2. Thermodynamics                             | 1. Definite Integration<br>2. Application Of Definite Integrals                                     |
| 8  | 5/Dec/26  | Saturday  | <b>Complete Syllabus From 25-Oct-2026 to 30-Nov-2026</b>               |                                                                              |                                                                                                     |
| 9  | 10/Dec/26 | Thursday  | 1. KTG<br>2. Thermodynamics & Heat Transfer                            | 1. Some Basic Concept Of Chemistry<br>2. Aldehyde, Ketone & Carboxylic Acids | 1. Differential Equation.<br>2. Probability Distribution<br>3. Binomial Distribution                |
| 10 | 15/Dec/26 | Tuesday   | 1. Kinematics 1D&2D.<br>2. Scalars And Vectors                         | 1. Structure Of Atom<br>2. Chemical Bonding                                  | 1. Trigonometry 2<br>(Trigonometry Ratio)<br>2. Straight Line                                       |
| 11 | 20/Dec/26 | Saturday  | 1. WPE & CM<br>2. NLM & Friction                                       | 1. Redox Reactions<br>2. Electrochemistry                                    | 1. Conic Sections<br>2. Circle                                                                      |
| 12 | 25/Dec/26 | Friday    | <b>Complete Syllabus From 25-Oct-2026 to 20-Dec-2026</b>               |                                                                              |                                                                                                     |
| 13 | 30/Dec/26 | Wednesday | 1. COM & Collision<br>2. Gravitation                                   | 1. State Of Matter<br>2. Solid State<br>3. S-Block Elements                  | 1. Probability<br>2. P&C                                                                            |
| 14 | 5/Jan/27  | Tuesday   | 1. Fluid Mechanics<br>2. Surface Tension & Viscosity<br>3. Elasticity. | 1. Amines<br>2. Biomolecules<br>3. Adsorption & Colloids                     | 1. Complex No.<br>2. Function                                                                       |
| 15 | 10/Jan/27 | Sunday    | 1. Ray Optics<br>2. Thermal Properties Of Matter                       | 1. Polymers<br>2. Chemistry In Everyday Life<br>3. Nano & Green Chemistry    | 1. Limit<br>2. Continuity                                                                           |
| 16 | 12/Jan/27 | Tuesday   | Final Round-1                                                          |                                                                              |                                                                                                     |
| 17 | 15/Jan/27 | Friday    | Final Round-2                                                          |                                                                              |                                                                                                     |
| 18 | 17/Jan/27 | Sunday    | Final Round-3                                                          |                                                                              |                                                                                                     |
| 19 | 19/Jan/27 | Tuesday   | Final Round-4                                                          |                                                                              |                                                                                                     |
| 20 | 21/Jan/27 | Thrusday  | Final Round-5                                                          |                                                                              |                                                                                                     |
